

PDI Cybersecurity Mobile App

Your Cybersecurity Command Center on the Go

Same Mission. Same Team. New Name. Nustpire is now PDI Security and Network Solutions.

Service Overview

The PDI Cybersecurity Mobile App is a powerful tool that empowers you to take control of your security program anytime, anywhere. As an integral component of the PDI Cybersecurity Platform, the app seamlessly blends human expertise, advanced AI technology and innovative technologies to provide unprecedented visibility, control and predictive intelligence across your entire cybersecurity infrastructure.

Comprehensive Threat Management

- **Unified Case Management:** Manage your security cases from anywhere, ensuring rapid response times
- **Personalized Threat Intelligence:** Receive curated cybersecurity news and threat intelligence with AI-powered summaries to stay ahead of emerging threats
- **Automated Threat Hunting:** Initiate AI-fueled threat hunts using natural language queries to proactively uncover hidden threats

Enhanced Operational Efficiency

- **AI-Driven Assistance:** Leverage PDI AI technology to streamline cybersecurity operations and provide instant answers to complex queries
- **Actionable Notifications:** Take immediate action on critical alerts and events from anywhere, minimizing potential damage from security incidents
- **Simplified Information Access:** Access extensive internal guides, SOPs and vendor documentation to enhance decision-making and operational efficiency

Operational Agility and Collaboration

- **Enhanced Agility:** Respond to threats and manage your security program on the go
- **Improved Collaboration:** Facilitate improved communication and coordination among security team members
- **Increased Productivity:** Automate routine tasks and access critical information instantly

Strategic Decision-Making

- **Informed Decisions:** Leverage AI-powered insights and real-time data for strategic security choices
- **Proactive Security Management:** Stay one step ahead of threats with proactive, mobile-enabled security management

Cybersecurity Hurdles in a Mobile World

- Limited access to real-time security data
- Difficulty responding to incidents outside the office
- Overwhelming volume of threat intelligence from various sources
- Inefficient manual processes for managing alerts and incidents
- Lack of collaboration among security team members

PDI Mobile App: Manage Your Cybersecurity Program Anytime, Anywhere

The PDI Mobile App helps you tackle the challenges of mobile cybersecurity management by providing comprehensive knowledge, streamlining operations and ensuring security compliance.

With the PDI Mobile App, you gain a dynamic and proactive approach to cybersecurity. Simplify your threat management, enhance operational efficiency and enable cohesion among your security team, all from the palm of your hand. Our advanced AI and automation tools keep you ahead of emerging threats and enable you to make informed decisions with real-time data.

About PDI Security and Network Solutions

With over 25 years of expertise, PDI Security and Network Solutions (formerly known as Nuspire) is redefining cybersecurity and network management through intelligent unification and unparalleled protection. The company delivers fully managed security and network services, including managed detection and response (MDR), endpoint detection and response (EDR), Firewall as a Service, 5G as a Service, and Wi-Fi as a Service. Their technology-agnostic platform seamlessly integrates human expertise, advanced AI, and cutting-edge technologies, providing holistic visibility across security and network infrastructure. PDI's 24x7 SOCs and expert teams enable organizations to stay ahead of emerging threats while optimizing investments.
